STATEMENT.

SACRAMENTO, February 10, 1903.

Mr. Speaker and Gentlemen of the Assembly:

I desire to say a few words in defense of my claim to a seat amongst your honorable body. Having been declared duly elected by an honest majority of the votes cast in my county on the fourth day of November last, 'tis not to be doubted but that the election officers of the different precincts were honest and faithful in the discharge of their duties and did what in their judgment was fair to both candidates; that the Honorable Board of Supervisors canvassed and counted the vote. That I was declared legally elected by that canvassing board, to the honorable office of Assemblyman from the Fifty-fourth District of California. And to that end the County Clerk of my county delivered to me a certificate, attested by his signature.

Therefore, gentlemen, under those conditions and fully believing myself entitled to it, I claim my seat in this House, and hope the honorable members of this body, considering all things, will find in my favor. I thank you, gentlemen, for your attention.

A. D. DUFFEY.

ON PUBLIC BUILDINGS AND GROUNDS.

ASSEMBLY CHAMBER, SACRAMENTO, February 10, 1903.

MR. SPEAKER: Your Committee on Public Buildings and Grounds, to whom was referred Assembly Bill No. 31—An Act to provide for the erection of additional buildings for the use of the State Normal School at Chico, California, to furnish the same, and making an appropriation therefor.

Also: Assembly Bill No. 201—An Act to provide for the completion of the modern hospital building for the Veterans' Home located at Yountville, Napa County, State of California, now in course of construction, and appropriating money therefor.

Have had the same under consideration, and respectfully report the same back, and recommend that they do pass.

BARNES, Chairman.

Also:

MR. SPEAKER: Thursday, February 4, the Committee on Public Buildings and Grounds visited the State Normal School at Chico, pursuant to a resolution of the Assembly, to inquire into the condition of that institution and its needs in the way of appropriations.

The State Normal School at Chico is devoted solely to the training of teachers for California. It stands practically alone in the field in Northern California. Of its 442 graduates, 315 are at present teaching in the schools of this State, chiefly in Northern California. The institution may therefore be said vitally and extensively to affect school interests here. The institution is expected to represent the same standard and all lines of work maintained in other normal schools of the State. Its standard is high, but it is not equipped for some lines (physical and manual training, for example) as maintained at Los Angeles and San José. The management of the institution is far from harboring any spirit of rivalry or jealousy toward its sister institutions. It merely believes that the interests of Northern California, industrial as well as educational, demand the same or equivalent equipment for teachers prepared by this school as for those prepared elsewhere in the State.

The tract of land upon which the normal building is located consists of eight acres given to the State by the late General Bidwell. There has been expended for building purposes a total of \$120,000, and the value of the entire property is now placed at about \$150,000. This includes the land, buildings, equipment, and improvements.

From 1895-96 to 1898-99, the attendance at the school ranged from 160 to 327, from 1899-90 to 1902-03 it has ranged from 350 to 377. This indicates that in the past five years, in spite of a very much higher standard of work and the exclusion of many students on account of scholarship, the work of the institution has increased 100 per cent and more. Every inch of room is constantly in use.

The institution graduated a class of nineteen last year and expects to turn out a class of forty-one this year. It is not graduating teachers any faster than they are given employment. In one to ten months after graduation all graduates are installed in the schools of the State. Of the members of the class graduated on January 23d of the present year nineteen already are engaged in teaching.

The physical condition of the students is good, although more manual training would prove of greater good. At the present time the institution has no room for such training. As a general rule the institution receives a good class of students, both mentally and physically. The girls have a basket-ball club, a debating society, and two tennis courts.

The school follows out a twenty weeks' term, nineteen of which are given over to study, and one for the receptions and exercises of the graduating class.

Distributed by counties, the attendance for the fifty-third fiscal year was as follows: Butte, 198; Shasta, 28; Siskiyou, 28; Tehama, 16; Colusa, 15; Sacramento, 13; Sutter, 11; Glenn, 8; Yuba, 8; Placer, 5; Amador, 4; Napa, 3; Santa Clara, 3; Solano, 3; Modoc, 2; Sonoma, 2; San Francisco, 2; Yolo, 2; Alameda, El Dorado, Nevada, Plumas, Sierra, San Joaquin, San Bernardino, Santa Cruz, San Diego, and Stanislaus, each 1. The States of Colorado, Wisconsin, and Texas each contributed 1, Nevada 2, and Oregon 3.

The institution is asking for an appropriation of \$23,500 at this session for building purposes. With this amount it is proposed to construct an addition to the present building. The basement and first story are to be used for gymnasium purposes. The second floor will contain two recitation rooms, which will greatly relieve the present pressure in the training school department. At the present time the entire lower floor is used for the training school. It includes six rooms.

By the proposed addition there will be an enlargement to the present assembly hall on the third floor, and will thus afford good room for manual training.

The money asked for can be advantageously spent, with profit to the institution and the State, as the proposed additional room is much needed.

Relating to the purchasing and making free, by the United States Government, of the toll roads passing over the Yosemite National Park, in the State of California.

WHEREAS, The State of California did, in the years 1885 and 1889, purchase and make free the portions of those certain three toll roads lying within the bounds of the grant of the Yosemite Valley (containing about thirty-six thousand acres), made to the State of California by Act of Congress, passed June 30, 1864, said roads having been built into and over said grant by permission of the State of California, and the commissioners to manage said park, provided by said Act of Congress; and

WHEREAS, The Congress of the United States did, on October first, eighteen hundred and ninety, pass an Act establishing the Yosemite National Park, containing about one million acres, in the center of which the said original Yosemite Valley Grant lies, but did not provide for the making free of the said three toll roads which pass over said National Park and into said Yosemite Valley, or for the making free of that certain fourth toll road which passes through said park, but not into said Yosemite Valley; and

WHEREAS, The Yosemite National Park is visited annually by many thousands of Californians and others, and it is a matter of great importance to the people of the United States and particularly to the people of the State of California that these toll roads should be made free by the National Government, and the anomaly of paying tolls in a people's park be done away with; and

WHEREAS, Congress has appropriated for the Yellowstone National Park over \$1,100,000, of which the sum of \$257,800 was appropriated at the last session of the present Congress, and has appropriated many hundreds of thousands of dollars for other national parks, but only the sum of \$22,000 for the Yosemite National Park; and

WHEREAS, At the fifty-sixth session of Congress a special commission was created to examine and report upon the feasibility of acquiring the four toll roads in and about said park, and for the construction of other necessary new roads within said park; and

WHEREAS, Said commission has reported fully as to the needs of said park and the amount of expenditure necessary therefor, and did recommend that the said four toll roads be purchased at the price of \$208,750, before the National Government construct any new roads; therefore be it

Resolved by the Assembly, the Senate concurring, That the same policy which induced the State of California to buy and make free the toll roads and trails in the California Yosemite Valley Grant, should also influence the National Government to buy and make free the toll roads which traverse the Yosemite National Park; and that our Senators in Congress be instructed, and our Representatives be requested and urged, to take such action as shall result in the securing of proper appropriations at the present session of Congress, in accordance with the report of said commission, for the purchase of these roads, to the end that said Yosemite National Park shall be made a park in fact, as well as in name, accessible to the people of the United States at all times.

AMENDMENT TO SUBSTITUTE TO ASSEMBLY BILL NO. 37.

SECTION 1. Section eighteen hundred and seventy-four of the Political Code is hereby amended to read as follows:

Section 1874. In compiling or causing to be compiled and adopted a uniform series of school text-books for use in the common schools of the State, as required by Section seven (7) of Article nine (9) of the State Constitution, the State Board of Education shall, within thirty days after the passage of this Act, meet and appoint three members of said board as a permanent committee on school text-books, designating the members thereof, not by name, but by the official positions which they respectively hold, and it is hereby recommended that the Governor, the president of said State Board of Education, be chosen one of the members of said committee. The said committee shall be designated and known as the State Text-Book Committee, and shall immediately organize and enter upon the discharge of its duties, and shall have power, subject to the approval of the State Board of Education, to revise in whole or in part and to manufacture such text-books as are now in use; to compile or cause to be compiled under its direction, and to manufacture such other or additional text-book or books as it may deem necessary or proper for use in the primary and grammar schools (the common schools) of the State; to purchase or hire plates, maps, and engravings of copyright matter; to contract for, or lease copyrights, for the purpose of being used in compiling, printing, and publishing such books; to provide for the payment of royalties or for the leasing of plates for the making of the whole or any part of a book or books, and to do any and all acts that may be necessary for the purpose of procuring a meritorious uniform series of text-books for use in all the primary and grammar schools of the State of California. Said committee shall have power, subject to the approval of the State Board of Education, to prescribe and enforce the use of a uniform series of text-books, and to adopt a list of books for supplementary use from which county and city and county boards of education shall select and adopt books for supplementary use in primary and grammar schools in their respective counties and cities and counties, as required by section seventeen hundred and twelve of the Political Code. As soon as any text-book shall have been compiled, printed, adopted, and is ready for distribution, it shall be the duty of every county and city and county superintendent of schools in the State to order a sufficient number thereof to give at least one copy of every such book to every public school district library in the county or city and county in which he is superintendent, and payment therefor shall be made by him by drawing his requisition without the order of the board of school trustees against the library funds of the respective districts in his county or city and county for the cost, and remitting the same to the official who has charge of the sale of State school text-books. In cities where the city school superintendent or city board of education is accustomed to draw requisitions upon the library funds, it is hereby made the duty of such superintendents or boards of education to order and pay for copies of books of the State series for their school libraries as herein provided, in lieu of the county superintendents.

2. Instruction shall be given in the following subjects in the primary and grammar schools of the State in the several grades in which they may be required, viz.: Reading,

writing, orthography, language lessons and English grammar, arithmetic, geography, history of the United States, elements of physiology and hygiene, vocal music, elementary bookkeeping, drawing, nature study, and civil government; and it shall be the duty of the said Text-Book Committee to revise such of the books of the present State series or publish such new ones in any of the above-mentioned subjects as may be necessary for the proper study and teaching of them, and for the purposes of compilation and publication may make use of any copyright matter deemed suitable, and may purchase or hire plates, maps, or engravings of such copyright matter, may contract and arrange for the payment of royalties, and shall designate such book or books, when published, as belonging to and forming a part of the State series of school text-books, subject to the approval of the State Board of Education.

3. Within ten days after organization, the said Text-Book Committee shall elect a secretary, who shall be a person of recognized educational ability and experience, who shall be provided with an office at the State Capitol in Sacramento in connection with that of the Superintendent of Public Instruction, and who shall keep the books, accounts, and all records of the said committee and perform such other duties as may from time to time be required of said secretary by said committee. Said secretary shall hold office at the pleasure of the committee and shall receive a salary of two hundred dollars per month, payable monthly in the same manner and from the same fund as the salaries of State officers are paid.

4. The said Text-Book Committee may secure copyrights, in the name of the people of the State of California, to any book that may be compiled under this Act, and whenever any one or more of the State school text-books shall have been compiled, published, and adopted, the Superintendent of Public Instruction shall issue an order to all county and city and county boards of education by sending notice by registered mail to the secretaries of all such boards requiring the uniform use of said book or books in all the primary and grammar schools of this State, and when said order shall have thus been given and published, the same shall remain in force and effect for a term of not less than four nor more than eight years; *provided*, that said order for the uniform use of said book or books shall not take effect until the expiration of at least one year from the time of the completion, purchase, or the leasing of the electrotype plates of said book or books; but nothing in this Act shall be construed to prevent any county, city, or city and county from adopting any one or more of the State series of school text-books whenever said book or books shall have been published and is ready for distribution; *provided further*, that whenever any plates, maps, or engravings of any publisher or author are adopted for use, as hereinbefore provided, the State Text-Book Committee shall enter into a contract for not less than four nor more than eight years for the use of the same, and shall require a good and sufficient bond of the owner of such plates, maps, or engravings, guaranteeing that the same shall be kept revised and up to date as may be required by the State Board of Education.

5. Any county, city and county, city, or school district that refuses or neglects to use the State series of school text-books in the grades and in the subjects for which they are intended, and at the time as required in the foregoing subdivisions of this Act shall, upon satisfactory proof of such refusal or neglect, have the State money to which it is otherwise entitled withheld from it by the Superintendent of Public Instruction.

6. The Superintendent of State Printing shall have the supervision of all mechanical work connected with the printing and publishing of such books as may be compiled and adopted by said Text-Book Committee and approved by the State Board of Education, and all such printing and binding shall be done in the State Printing Office. The Superintendent of State Printing shall annually on the first day of July, and oftener if requested, submit to the said Text-Book Committee a detailed statement showing the number and name of books of the State series published by him during each year.

7. Whenever any book authorized to be published under this Act is ready for sale or delivery to pupils, the State Printer shall submit to the said State Text-Book Committee, and it in turn to the State Board of Education, an itemized statement showing the exact cost of the material, printing, binding, and finishing of such book in editions of five thousand or more; and the State Board of Education shall thereupon determine and fix the price of such book, as required by law, by adding to the cost of manufacturing it the price contracted to be paid as royalty or for the use of the plates, maps, or engravings of the copyright matter therein contained, and said price shall be deemed to be the whole cost of publication of such book at Sacramento. The amount fixed for royalty or cost of plates of copyright matter shall, as the books are sold, be kept separate from other proceeds from the sale of State school text-books, and deposited in the State Treasury to the credit of a fund to be designated and known as the "Text-Book Royalty Fund," the same to be paid out quarterly or semi-annually, as may be agreed between the owners of copyright matter and said Text-Book Committee, on the order of the said State Text-Book Committee, in payment of royalties or hire of plates, maps, or engravings of copyright matter in the same manner as other claims upon the State Treasurer are paid.

8. The sum of twenty thousand dollars is hereby appropriated out of any money in the State Treasury not otherwise appropriated, for the purpose of carrying out the provisions of this Act. Said appropriation, which shall be known as the "text-book appropriation," shall be subject to the drafts of the said Text-Book Committee for all the expenses incurred by it, except the salary of the secretary, which is otherwise provided for in this Act; *provided*, that all claims shall be presented to the State Board of Examiners for their approval; said appropriation shall be subject to the drafts of

the said committee for all moneys needed for the payment of royalties, for the purchase or hire of such plates, maps, or engravings that may be necessary but which can not be arranged to be paid for as provided in subdivision seventh hereof, for expert opinions as provided for in subdivision nine of this Act, for printing, stationery, postage, and expressage that will be required by said committee and for manufacturing any edition of any book of the State series now in use or which may hereafter be adopted for use in the primary and grammar schools. MR. SPEAKER: Your Committee on Federal Relations, to whom was referred a resolution by Mr. Baxter, relating to the purchasing and making free by the United States Government of the toll roads passing over the Yosemite National Park in the State of California—have had the same under consideration, and respectfully report the same back, and recommend that it do pass.

GOODRICH, Chairman.

Report adopted.

RESOLUTION.

By Mr. Baxter:

Relating to the purchasing and making free, by the United States Government, of the toll roads passing over the Yosemite National Park, in the State of California.

WHEREAS, The State of California did, in the years 1845 and 1849, purchase and make free the portions of those certain three toll roads lying within the bounds of the grant of the Yosemite Valley (containing about thirty-six thousand acres) made to the State of California by Act of Congress passed June 30, 1864, said roads having been built into and over said grant by permission of the State of California, and the commissioners to manage said park provided by said Act of Congress; and

WHEREAS, The Congress of the United States did, on October first, eighteen hundred and ninety, pass an Act establishing the Yosemite National Park, containing about one million acres, in the center of which the said original Yosemite Valley Grant lies, but did not provide for the making free of the said three toll roads which pass over said National Park and into said Yosemite Valley, or for the making free of that certain fourth toll road which passes through said park, but not into said Yosemite Valley; and

WHEREAS, The Yosemite National Park is visited annually by many thousands of Californians and others, and it is a matter of great importance to the people of the United States and particularly to the people of the State of California that these toll roads should be made free by the National Government, and the anomaly of paying tolls in a people's park be done away with; and

WHEREAS, Congress has appropriated for the Yellowstone National Park over \$1,100,000, of which the sum of \$257,800 was appropriated at the last session of the present Congress, and has appropriated many hundreds of thousands of dollars for other national parks, but only the sum of \$22,000 for the Yosemite National Park; and

WHEREAS, At the fifty-sixth session of Congress a special commission was created to examine and report upon the feasibility of acquiring the four toll roads in and about said park, and for the construction of other necessary new roads within said park; and

WHEREAS, Said commission has reported fully as to the needs of said park and the amount of expenditure necessary therefor, and did recommend that the said four toll roads be purchased at the price of \$208,750 before the National Government construct any new roads; therefore be it

Resolved by the Assembly, the Senate concurring, That the same policy which induced the State of California to buy and make free the toll roads and trails in the California Yosemite Valley Grant, should also influence the National Government to buy and make free the toll roads which traverse the Yosemite National Park; and our Senators in Congress be instructed, and our Representatives be requested and urged, to take such action as shall result in the securing of proper appropriations at the present session of Congress, in accordance with the report of said commission, for the purchase of these roads, to the end that said Yosemite National Park shall be made a park in fact, as well as in name, accessible to the people of the United States at all times.

Resolved further, That the Chief Clerk of the Assembly be instructed to transmit by mail a copy of this resolution to the President of the Senate and to the Speaker of the House of Representatives of the United States of America, and to each Senator and Representative of the State of California at Washington, D. C.

ON STATE PRISONS AND REFORMATORY INSTITUTIONS.

ASSEMBLY CHAMBER, SACRAMENTO, February 13, 1903.

MR. SPEAKER: Your Committee on State Prisons and Reformatory Institutions visited San Quentin Prison, February 1st, and Folsom Prison, February 11th and 12th, and after

inspecting the various departments of each institution as to their wants and needs, proceeded to the investigation as directed by the following resolution, adopted by the Assembly, January 31, 1903:

"Resolved, That the Committee on State Prisons and Reformatory Institutions are hereby instructed and empowered to inquire whether prisoners confined in San Quentin and Folsom State prisons are now or have been within the last year subjected to cruel and unusual punishments, and especially to what extent the strait-jacket is being used at said prisons upon said prisoners confined in said prisons for the purpose of discipline or punishment; that said committee make this inquiry during their visit to said prisons, which they have been directed to make by this Assembly, and said committee is hereby directed to report to the Assembly in writing the result of their investigation as soon as practicable."

At San Quentin we examined numerous witnesses, including officers and convicts, and obtained conclusive evidence to the effect that the strait-jacket has been used during the entire term of the present Warden, and is now being used as a means of punishment. It was also used to a limited extent under the administration of Warden Hale, during the latter part of his term of office. Its use was admitted, and is upheld by Warden Aguirre, and by other officers of the institution. We find that in over 300 instances the strait-jacket has been applied as a punishment under the present Warden. The use of the strait-jacket was pronounced to be a severe punishment, one much dreaded by all prisoners. The only other mode of punishment used was confinement in a dungeon on a diet of bread and water.

We find that prisoners have been confined in the strait-jacket for very slight causes at both prisons, sometimes continuously for more than forty-eight hours, and that, as the result of such confinement, some of the prisoners were permanently injured. In the cases of Evve Thompson and Jack Shaughnessy we find that they are, as a result of the injury received from being confined in the strait-jacket, badly crippled, having lost the use of their hands. The offense for which these two prisoners were punished was that of fighting.

At Folsom your committee found that the strait-jacket had never been in use until about three years ago. It was in use for about two years. Warden Wilkinson deciding to discontinue it about one year ago. During the time that the strait-jacket was in use, we found one Robert Smith had been permanently crippled in his right arm and hand, and sustained other injuries. In the case of Morris Weiss, alias Weitz, who was a tailor by trade, and worked at the same up to the time he was put in the strait-jacket, we find that he sustained such injuries to his hands and arms as the result of said punishment, that in all probability he will never be able to work at his trade again.

In the case of James Deare we learned that he was found dead in his cell within twenty-four hours after being released from the strait-jacket. From the evidence taken by your committee, it is not prepared to report that death resulted from injuries received by the use of the strait-jacket, but such is the opinion of persons conversant with all the facts in this case.

Owing to the limited time at the disposal of your committee, it was unable to make the thorough investigation the subject warrants. Therefore your committee recommends that a special committee be appointed with full power to summon witnesses, administer oaths, take testimony, and thoroughly inquire into and investigate the management of said prisons, to the end that a more humane mode of punishment may be prescribed and a better system of management evolved.

It has been further ascertained by your committee that the State Board of Prison Directors has not held a meeting for some months. It is the opinion of your committee that a separate Board of Directors for each prison would insure better results and be the means of bringing about much needed reforms.

Facts in possession of your committee constitute conclusive evidence that the strait-jacket is an inhuman and cruel instrument of punishment. Whether or not the Assembly accepts the recommendation to appoint a special committee to make a more thorough investigation in this matter, we would respectfully and most earnestly recommend that the use of the strait-jacket as a means of punishment in all penal institutions of this State be prohibited by statute.

In order that the members of this Assembly and any committee appointed pursuant to the recommendations herein contained, may have a better comprehension of the "strait-jacket" as used at the prisons of our State, the knowledge of which was gained by us from documents in our possession and through our efforts while pursuing our duties as directed by the resolution under which we acted, your committee informs you, sir, that the inhumanity, cruelty and degradation resulting to the unfortunate victim and also to the officer and officers who administer the punishment are far beyond the comprehension of any one who has not had an opportunity of investigating as we have had. The strait-jacket is what its name implies, made of heavy canvas, with lacings in the back, and is long enough to extend from the neck to the ankles. It is used by placing it around the body of the victim, his arms being in pockets, and his hands down in front of him, placing him face down on the floor and then lacing the "jacket" as tight as one, two, three or four men, with feet or knees on the victim's back, may desire to pull the lacings, the number of men depending upon various circumstances surrounding each individual case; thus tightly laced the punishment consists of compressing the body and the internal organs. The victims are usually laid on the back in a dungeon and allowed to remain for many hours while in the jacket. The victim is not able to take much

nourishment, but often is forced to take water and epsom salts which is poured into the mouth with a spoon. During the course of this treatment the victim is forced to respond to the calls of nature, with the result that he has to remain prone in his own filth until such time as those in charge of his case see fit to release him.

Any one can easily see that by the use of such an instrument of torture nerves may be wrecked, limbs may be severely crippled, and permanent injury or death may result.

COMMUNICATION.

The following communication was received and ordered printed in the Journal:

A PROTEST AGAINST THE PASSAGE OF SENATE BILL NO. 354.

MILLS BUILDING, SAN FRANCISCO, February 9, 1903.

To the Honorable Senate and Assembly of the State of California:

GENTLEMEN: We respectfully represent to your honorable bodies that the effect of the enactment into law of the provisions of Senate Bill No. 354, now pending before you, or similar provisions in any other bill, would be to paralyze the manufacturing industries of California and many of the producing industries depending upon them, for the reasons below stated:

The effect of this bill, if passed, will be to require that every article manufactured in this State shall be conspicuously labeled and stamped with the name and address of the manufacturer, and in towns and cities with his street and number, and to prohibit all dealers and other persons from selling or exposing for sale any articles made in this State, unless so labeled, etc., under penalty, both in the case of the manufacturer and of the dealer, of conviction and punishment for misdemeanor.

Under the proposed Act every one of the millions of cans, bottles and other containers of fruits and other products made in this State would have to be stamped as specified. Likewise the ordinary labels covering these containers as well as the boxes in which they are packed. Many parts of a battleship, of machinery, wagons and other articles made here in part would have to carry the prescribed name and address. The requirement would apply to every brick made in the State and to other articles of clay, and even to a spool of thread selling for one cent. The cost of compliance would in many cases be prohibitive of manufacture and in other cases burdensome and oppressive, and the value of many thousands of dollars' worth of labels already prepared for use in the ordinary course of business and now on hand with our manufacturers would be destroyed upon the passage of the bill.

The cause of this protest is that the provisions of this measure are utterly impracticable in character, opposed to fixed conditions of trade, and that they grossly discriminate

against the manufacturers of this State and in favor of articles made elsewhere and brought into this State, because the requirements of the bill do not and can not apply to articles made outside of this State. Should this bill specifically recite that no article made elsewhere and brought into this State shall be required to be so labeled, etc., and that no person selling it shall be punished, but that all articles made in our own State shall be so labeled and that any person making or selling anything made in this State not so labeled shall be fined and imprisoned, it would more clearly define the practical working of this measure, which seeks to brand the manufacturers of our State as criminals for doing what every manufacturer outside of the State is permitted to do and can not be prevented from doing.

The established conditions of trade imperatively require the manufacturer here and elsewhere to put up goods in many instances under the brand and label of the jobber or merchant. Refusal on the part of manufacturers of this State to comply with this demand of the jobber would inevitably send him to the manufacturers of States whose laws seek to build up their industries instead of to destroy them. One third of the market of many of our manufacturers would be lost in this manner alone through this measure and the producers of fruits, vegetables, and other products, as well as the manufacturer, would be irreparably injured.

We further respectfully represent to your honorable bodies that no part of this opposition to said bill relates to the purpose of the measure to distinguish between the products of white and of Chinese labor, and that, while it is possible that the originators of this measure conceived that they were working to a laudable end, no more sweeping blow, disastrous in its effects, could be struck at our industries than this proposed law.

We therefore most emphatically protest against the passage of Senate Bill No 354, and of any other bill containing similar provisions.

Respectfully,

MANUFACTURERS AND PRODUCERS' ASSOCIATION OF CALIFORNIA.

(Signed:) A. SARBORO, President.

CHARLES E. BANCROFT, Secretary.

[SEAL.]

The Manufacturers and Producers' Association of California was organized in March, 1895. It is composed of producers and manufacturers throughout the State, and its leading purpose is to encourage the manufacture and production, distribution and consumption of California products of all kinds.

Section two hundred and seventy-five of said Code of Civil Procedure is hereby amended to read as follows: All persons are attorneys and counselors of the supreme court of this state, who, when this Act takes effect, are entitled to practice in that court; *provided, however,* that if, at said date, any such person be not a citizen of the United States, or has not declared his or her intention to become such in accordance with the law, his or her right to practice in the courts of this state shall cease upon the expiration of six months from said date, unless within said time he or she shall become a citizen, or shall, in the manner provided by law, declare his or her intention to become a citizen. No citizen shall be admitted to practice as an attorney and counselor at law in the courts of this state except by the supreme court, and then only upon motion therein, the applicant being personally present in open court; *provided, further,* that any citizen and resident of this state, of good moral character, who, prior to the sixteenth day of March, eighteen hundred and ninety-five, was regularly admitted to practice in any superior court of this state, pursuant to the law, and who, since being admitted as aforesaid, has been continuously engaged in the practice of the law in this state, and whose license is in full force, and unrevoked, shall, upon filing with the clerk of the supreme court a certificate of the county clerk of the court where the said attorney was admitted to practice, certifying the date of his admission; that he has, since said date, been continuously practicing before said court, and that he is a good citizen of good moral character, and that his certificate is unrevoked, shall receive from said clerk of the supreme court, and said clerk is hereby authorized and directed to issue to said applicant, a certificate entitling him to practice in all the courts of this state. Said certificate shall be in form the same as certificates granted on examination of applicants. At the time of issuing said certificate, said applicant must sign the roll of attorneys kept by said clerk.

SEC. 2. Section two hundred and seventy-six of said Code of Civil Procedure is hereby amended to read as follows:

Any citizen of the United States, regardless of sex, of the age of twenty-one years or over, of good moral character, who has complied with the requirements of this chapter, is entitled to admission as an attorney and counselor at law in all the courts of this state. To entitle a citizen to make application for admission, and to be admitted to practice, as an attorney and counselor at law in the courts of this state, he or she must have complied with the following, in addition to the other requirements of this chapter:

1. Such person must produce and file, with his or her written application, satisfactory testimonials of good moral character from at least two persons who have been members of the bar of the supreme court of this state for at least five years preceding the day of making the application. It must further satisfactorily appear by affidavit of the applicant that he or she has studiously pursued the study of law for at least two years preceding the day of the application, stating the time he or she has actually studied, giving the dates, the place or places, and the course of study pursued; and it must further appear by such affidavit that the applicant has been a bona fide resident of the judicial district in which such application is filed for a period of six months immediately preceding the day of the application; and such person must satisfactorily pass the examination required by this chapter; or

2. Such person must have been duly and regularly admitted to practice law in the highest court of a sister state, territory, or of a foreign country, where the common law of England constitutes the basis of jurisprudence; must produce his or her license or certificate of admission, and satisfactory evidence of good moral character, as in subdivision one of this section provided, and must also produce and file, with his or her written application for admission, the affidavit or certificate of judge or judges of the

court or courts of record of such state or country, under the seal of such court or courts, affirming or certifying that the applicant, for a term of at least two years next preceding the day of the application for admission to practice in the courts of this state, had actually been engaged in the practice of the law as an attorney and counselor in all the courts of such state, territory, or country, giving the dates and the place or places of practice, and that his or her license is in full force and unrevoked; such applicant must also, if required, satisfactorily pass the required examination. Every citizen admitted upon motion under the provisions of this subdivision shall pay a fee of twenty-five dollars, which shall, or may, be used under the direction of the supreme court, in the payment of the expenses of holding and conducting examinations and the compensation of the board of examiners, as in this chapter provided with reference to other fees. Any fraudulent act or representation by the applicant in connection with his application for admission shall be sufficient cause for the revocation of his or her license by the supreme court.

SEC. 3. Section two hundred and seventy-seven of said Code of Civil Procedure is hereby amended as follows:

A state board of examiners is hereby created, to consist of three members, who shall be attorneys and counselors of at least five years' standing at the bar of the supreme court of this state, one of whom shall be a resident of the San Francisco district, one of the Los Angeles district, and one of the Sacramento district, as said districts are now established, and who shall be appointed by and hold office at the pleasure of the supreme court. The compensation of said board of examiners shall be fixed by the supreme court for each examination, and shall be paid, upon the order of the chief justice of said court, from the fees of all applicants for admission to practice law in this state, as in this chapter provided for, but the aggregate amount of such compensation and the expenses of holding and conducting such examination shall not exceed the total of such fees. Every applicant for examination shall pay a fee of twenty-five dollars. The payment of one examination fee shall entitle the applicant to the privilege of two succeeding examinations. The board of examiners shall hold one examination in the city of San Francisco, one in the city of Sacramento, and one in the city of Los Angeles, in each year after the taking effect of this act, and at such time during such year as the supreme court shall determine. No other examinations shall be held. It shall be the duty of the board of examiners to personally conduct and hold written and oral examinations of applicants for admission; to make all needful rules and regulations to govern the same; to prepare written questions for the written examinations, and to propound the oral questions upon the oral examinations hereinafter provided for. All examinations shall be publicly held and conducted, and shall be based upon both written and oral questions, which shall be sufficient in number to furnish a fair and thorough test of the applicant's attainments in the law. The board of examiners shall carefully examine all of the answers of each applicant to the written questions, and shall carefully note the answers of each applicant to the oral questions; and shall make and file, with the clerk of the supreme court, a written report thereon, giving the standing of each applicant, both upon the written and upon the oral examination, and therewith shall make their written recommendation to the supreme court as to which of the applicants are entitled to be admitted to practice and as to which of them are not, and file the same with the clerk of the supreme court. The written answers of each applicant shall also be filed with the clerk of the supreme court.

SEC. 4. Section two hundred and seventy-eight of said Code of Civil Procedure is hereby amended to read as follows:

The examinations herein provided for shall be based upon constitutional law, equity, jurisprudence, common law, and the general statutory law of California, excepting the Political Code.

SEC. 5. Section two hundred and seventy-nine of said Code of Civil Procedure is hereby amended to read as follows:

At any time after the examination, and after the filing of the written report and answers and recommendation, as provided in section two hundred and seventy-seven, or after the filing of the application for admission and the certificate and testimonials, as provided in subdivision two of section two hundred and seventy-six, the supreme court may, upon motion, in open court, based upon such examination, report, and recommendation, or upon such application, certificates, and testimonials, admit such applicant as an attorney and counselor at law in all the courts of this state, provided he or she is entitled to be admitted under the provisions of this chapter; and, if admitted, shall direct an order to be entered to that effect upon its records, and that a certificate of such record be given to the applicant by the clerk of the supreme court, which certificate shall be his or her license to practice law in all the courts of this state.

SEC. 6. Section two hundred and eighty of said Code of Civil Procedure is hereby amended to read as follows:

Every person on being admitted must take an oath to support the Constitution of the United States and the Constitution of the State of California, and to faithfully discharge the duties of an attorney and counselor at law to the best of his knowledge and ability. A certificate of such oath must be indorsed upon the license. The clerk of the supreme court shall keep a roll of attorneys and counselors admitted to practice by the court of which he is clerk, which roll shall be signed by the person admitted before such person shall be entitled to receive his or her license.

SEC. 7 Section two hundred and eighty-one of said Code of Civil Procedure is hereby amended to read as follows:

REPORT OF STANDING COMMITTEE—(OUT OF ORDER).

ON STATE PRISONS AND REFORMATORY INSTITUTIONS—(MINORITY REPORT).

ASSEMBLY CHAMBER, SACRAMENTO, February 14, 1903.

MR. SPEAKER: The minority of your Committee on State Prisons and Reformatory Institutions beg leave to report respecting the said prisons at San Quentin and Folsom, and in particular as to the use of the strait-jacket at said prisons, in pursuance of a certain resolution of this House, adopted January 31, 1903, which resolution is set out in the majority report of this committee.

San Quentin State Prison.

On or about the 2d day of February six members of said committee, namely, Olmsted, Carter, Bliss, Barber, Murphy, and McKenney, visited San Quentin Prison. The Warden and officers of the prison conducted us through the entire prison and freely and voluntarily granted us every opportunity to thoroughly inspect the prison in every department. We found that the prison contained about 1,468 prisoners, serving from one year to life sentences, and a number awaiting execution. The grounds and interior of the buildings appear in a good and cleanly condition. The food that we inspected appeared wholesome and of good quality. The prisoners appeared well clothed and looked to be in a healthy condition. The individual members of the committee conversed with quite a number of prisoners while passing through the grounds and buildings, and speaking for the minority signing this report, heard no word of complaint of ill-treatment except in two instances from inmates confined in incorrigible cells.

Incorrigible Cells.

We found no prisoners in the dungeons. Five or six men were imprisoned in the incorrigible cells and we were informed some of them have been there for a number of years. These cells are located in a light and dry room, but are small, with very few comforts for the inmates. The discipline so far as our investigation went seemed to be

good. It is generally conceded, and we believe not denied, that for many years past the greatest difficulty that the officials of this prison have had to contend with has been the surreptitious dealing in and use of opium in this prison. Many prisoners are now dope fiends who were not addicted to the use of the drug before entering the prison. The use of the drug in the prison resulted in the degradation of the men using it, and tended to incite the prisoners to disturbance and infraction of the prison rules, and generally affected the discipline of the institution. Our investigation, based on statements of the Warden, officers and prisoners, showed that within the past two years the use of the drug has been almost entirely stopped, and by reason of this fact there is less fighting and contention among the prisoners; that they are more contented, in better health, and capable of doing more work than in former years.

Folsom State Prison.

(On the 11th and 12th of this month the same members of your committee who went to San Quentin visited the Folsom State Prison. As at San Quentin we were treated courteously by the Warden and officials and given every opportunity to investigate the condition of the prisoners and the methods of punishment in vogue at the prison. This prison, as at San Quentin, appeared clean and well kept; most of the men are employed in the quarries and about the prison. The men at this prison appeared to be in a healthy condition, but the committee heard universal complaint from the prisoners about the food they received; it being stated that they had sufficient in quantity, but that it is not properly prepared, that their work on the rock-crusher and in the quarry is laborious and their hours long and that the food they receive does not give them sufficient strength for that work. Some complaint was also heard concerning insufficiency of the blankets. We found in this prison several men in what is known as the dungeon. Some were confined in these cells for using opium, one was presented to us, and appeared to be of weak mind, or demented, and another was there because he claimed he was afraid to go in the yard and work among the other prisoners, fearing they would do him bodily harm. He stated to us that he was there in the dungeon at his own request. We found that at this prison there is a great deal of opium or what is called "dope" used by the prisoners. The minority of your committee believes that the officers are diligent and sincere in trying to suppress the use of the drug among the men, but owing to the fact that the men work out of doors in the quarries and open fields at times far beyond the guard line, it is a difficult matter to cope with this terrible evil.

The Strait-jacket

The committee, while not empowered by the resolution under which they were acting to send for papers, administer oaths, and take testimony under oath, nevertheless took the unsworn statements of the Warden, officers, and a number of the prisoners at each of these institutions concerning the mode of punishment in vogue at said institutions, and in particular in reference to the use of the strait-jacket. At San Quentin the only mode of punishment now in vogue is the strait-jacket, except as to confinement in the incorrigible cells heretofore referred to. At Folsom the use of the strait-jacket was discontinued about a year ago and has not since been used. At San Quentin some three hundred or more had been punished by the use of the strait-jacket and at Folsom about one hundred and sixty had received that punishment. The testimony showed that at San Quentin a colored man, named Evve Thompson, and one Shaugnessy have been crippled for life by the use of the strait-jacket. The statement of Dr. Casey, however, was to the effect that these men were suffering with a bad disease and that the use of the strait-jacket probably induced results that would not have occurred had the men been in a healthy condition. A number of convicts at San Quentin were examined who had been in the strait-jacket for twenty four to forty eight hours at a time and stated that if it was not laced too tight, while the punishment was severe, yet it was preferable to them to being placed in a dungeon for thirty days on bread and water; that it had a better effect in disciplining the prisoners. They said that they had suffered no permanent injury from its use. At Folsom the committee heard the statements of a number of prisoners that had been in the strait-jacket. One man, Morris Weitz, stated that he was by trade a lady and gentleman's tailor, capable of earning one hundred and twenty-five dollars per month at his trade; that he was put in the strait-jacket twice, the first time twelve hours and again for twenty-five and one half hours; that the last time, he was crippled in the hands and arms from the use of the jacket. The fingers of his right hand were stiffened to such an extent that he is unable to open his hand. His right arm in places appeared to be withered and the whole arm crooked; he said he would be unable to follow his trade when released.

Another man named Robert Smith appeared before the committee, and stated that he was in a strait-jacket fifty-two hours. He exhibited to the committee his hand, which he claims was the result of the use of the strait-jacket, which was withered and scarred, and he is to-day a cripple for life. He stated that the strait-jacket was put on very tight, and he suffered great pain and agony while in the same.

A man named John Deare was put in the strait-jacket for about twenty-five hours. He was released in the afternoon and taken to his cell. The next morning he was found dead in his cell. It is but fair to state, however, in this connection, that the committee took the statement of Dr. Atkinson, a resident physician of Sacramento not connected with the prison, who held an autopsy on the body of Deare. The doctor stated that he found a congested condition of the brain and bruises on the head, which he believed the man had received in his cell, and which could have been done by the man striking his head

against the wall, thus producing death. The physician further stated that he also found his bowels were somewhat inflamed and other internal disarrangements, which were no doubt produced by the use of the strait-jacket. He further stated that the use of the strait-jacket will produce serious nervous disorders, as well as to cause internal injuries, if the victim is tightly laced.

All statements taken at each of these prisons developed the fact that the punishment in each case is fixed by the Captain, and O. K.'d by the Warden, but that the placing of the strait-jacket on the prisoner is left to the turnkey and the guards, and is not done under the supervision of the Warden or physician; although the statements showed that at Folsom each prisoner was examined by the physician to ascertain the condition of his health before he was put in the strait-jacket.

Warden Aguirre and other officers at San Quentin, and some of the prisoners who had had the strait-jacket used upon them, justified the use of the strait-jacket on the grounds that it is a necessity to maintain the discipline of the prison, claiming that by the use of other punishment as good discipline could not be maintained. Since the discontinuance of the use of the strait-jacket at Folsom, the punishment other than confinement in the dungeons, is by depriving the prisoner of his mail for a specified time, depriving him of credits, and a more severe punishment of tricing or hooking up, which is done by placing the prisoner's hands behind him handcuffed and fastening them up at such height that he can just keep his feet on the ground. From all of the statements made before the committee and the evidence in the shape of the crippled hands and limbs of the victims who have been in the strait-jacket, the minority of your committee is impressed with the belief that while, if it was used properly and in cases of gross violation of the rules, or in other words, where extreme punishment was required, its use might be permitted, but owing to the fact that it can be made an instrument of terrible torture, crippling its victims for life, and its use having in the past been so abused, it should be abolished.

The minority of your committee believes that the whole prison system and the law of this State affecting the punishment of criminals is radically defective and should be amended throughout. Your minority recommends that the aggregate system employed at the prisons should be abolished, and that a system should be adopted by which there could be a segregation of the men according to the most modern system adopted in penal institutions.

The minority of your committee further recommends that at Folsom State Prison there should be constructed a building capable of holding 75 to 100 inmates, to be used as a prison for insane prisoners; the committee being informed that there are now within the State hospitals about 65 insane persons convicted of crime that have been taken out of the prisons.

The minority of your committee further recommends that there should be some place provided in the prisons where prisoners, such as the one at Folsom, who claims to be afraid to mingle among the convicts, or where they are addicted to the use of "dope," can be kept apart from the main body of prisoners without placing them in dark dungeon cells.

The minority of your committee believes that the Board of Prison Commissioners have invited public censure for neglect of duty in permitting the extreme punishments that have been given to the prisoners, and for not making more frequent visits to these institutions.

The minority of your committee further recommends that a select committee of five be appointed for the purpose of recommending to this Legislature legislation for the regulation of punishment of prisoners in our State prisons, and other legislation for the improvement of our present system.

Respectfully submitted.

HENRY E. CARTER

days; *provided further*, that the foregoing provisions relating to the average daily attendance and the number of teachers employed shall not operate to disqualify any legally established high school existing at the date of the passage of this Act from receiving a share of said state high school fund until July 1, 1904.

PETITIONS.

Mr. John presented the following petition from citizens of the County of San Luis Obispo, which was ordered printed in the Journal:

LYNCH, CAL., January 14, 1903.

HON. WARREN M. JOHN, *Member of Assembly, Sacramento, Cal.*

DEAR SIR: Shippers of poultry and eggs to the San Francisco market lose yearly thousands of dollars' worth of chicken-coops and egg-cases. The express company charges for returning the empties by freight. Whenever they do not arrive at our station, the commission merchant says he delivered them to the depot, and the railroad company says they were not delivered to them, and the farmer has to bear the losses.

Therefore, we, the undersigned, very respectfully request you to introduce a bill, and try to have passed a law which compels the commission merchants to take receipts from the railroad company when delivering chicken-coops and egg-cases. The railroad company will then deliver them to the proper station.

Outgoing vessels take eggs and poultry along with cases and coops, the commission merchant charges them for the same, but the farmer never gets a cent for them.

(Signed:) H. Junge, John P. Kavanagh, John Stoney, Wm. Langenbeck, Alice C. Lynch, A. M. Lynch, Andrew Bransh, Solomon Maulbatch, E. S. Talley, H. Kohl, Mrs. I. Van Auker, L. P. Van Auker, Ernst Konekamp, Chas. Forbes, J. M. Allen, Peter Christensen, Sol Cox, Lud Clark, Mrs. H. P. De Tracey, Clara A. McKenney, Louisa H. McKenney, Maude C. De Tracey, J. T. Reasons, and W. Kitchen.

Also: The following communication from the secretary of the California Central Coast Counties Improvement Association, which was also ordered printed in the Journal:

SALINAS, January 24, 1903.

HON. WARREN M. JOHN:

DEAR SIR: A bill is now or is about to be brought before the State Legislature appropriating a sum of money for the purpose of instituting a California exhibit at the Louisiana Purchase Exposition at St. Louis in 1904.

The Monterey County Chamber of Commerce, in connection with the California Central Coast Counties Improvement Association, intends installing and maintaining an exhibit at St. Louis, as is undoubtedly the case in nearly all counties having a Board of Trade or similar organization. The matter has been discussed at length by our directors and it is their unanimous opinion, and they desire to express to you that, instead of this fund being entirely controlled and expended by a board of commissioners, each county intending to make an exhibit at St. Louis be apportioned, to be used for this purpose only, a certain amount from the appropriation.

Boards of Trade, etc., are organized and exist only for the purpose of advancing the interests and advertising the resources of their vicinity, and are mainly composed of business men—men who have at heart the advancement of their locality—and assisting these local organizations as above suggested will more evenly distribute to all portions of the State the assistance the Legislature intends giving the State as a whole, and make more effective the California exhibit.

We beg to remain, respectfully yours,

C. A. RICKETTS,

Secretary California Central Coast Counties Improvement Association.

Mr. Wright presented the following petitions from Sacramento and Pomona Granges, P. of H., which were ordered printed in the Journal:

WHEREAS, An Act to provide for the marketing, branding, or labeling of boxes, barrels, or packages, containing fruits, fresh or dried, and fixing a penalty for the violation thereof, and for the appointment of inspectors under its provisions, known as Assembly Bill No. 173, has been introduced in the Assembly of the State Legislature by Assemblyman Wright; and

WHEREAS, Said Act providing, as it does, for the proper labeling of prepared fruits for shipment, and the correct designation of the immediate locality and county in which said fruits were grown, together with provision making any violation of said Act a misdemeanor, and therefore imposing a reasonable fine upon any person or persons guilty of violating said Act, would prove to be of immeasurable benefit and value to the several branches of agriculture now carried on in various portions of the State, inasmuch as it would protect communities which make a specialty of producing superior grades of fruits, berries or cereals; now, therefore, be it

Resolved, That we, the members of Sacramento County Pomona Grange, No. 2, representing the interest of the farmers of Sacramento County and of this State, do earnestly petition that said Act be favorably considered, and passed by this Assembly of the Legislature of the State of California, and that it thereafter become a law.

SACRAMENTO COUNTY POMONA GRANGE, No. 2

H. MUDDOX, Chairman,
WM. JOHNSTON,
E. GREER,
Committee.

WHEREAS, An Act to provide for the marketing, branding, or labeling of boxes, barrels, or packages, containing, fruits, fresh or dried, and fixing a penalty for the violation thereof, and for the appointment of inspectors under its provisions, known as Assembly Bill No. 173, has been introduced in the Assembly of the State Legislature by Assemblyman Wright; and

WHEREAS, Under the provisions of said Act, making it a misdemeanor for any person or persons improperly to label or wrongly designate the locality in which fruits prepared for shipping have been grown, the horticultural and agricultural interests of this State will be materially benefited, inasmuch as it will preserve to communities noted for the production of high-class fruits and cereals their standing in the markets of the world as well as protect careful, conscientious packers from the encroachments of careless and unscrupulous persons; be it

Resolved, That we, the members of Sacramento Grange, No. 12, farmers and residents of Sacramento County, do earnestly favor and recommend the passage of said bill, and that it go into effect immediately subsequent thereto.

ON PUBLIC BUILDINGS AND GROUNDS.

ASSEMBLY CHAMBER, SACRAMENTO, February 17, 1903.

MR. SPEAKER: Your Committee on Public Buildings and Grounds visited the Veterans' Home at Yountville on February 8, 1903. We were shown every courtesy by the painstaking officials in charge, who seemed anxious that the committee should note the conditions of the home. After a close and careful examination, the committee were unanimous in their belief that the home is entitled to all possible aid from the State. We find that the modern new hospital building was constructed with a view of comfort to the unfortunate veterans, and that the directors have made a splendid showing for the \$25,000 expended. We believe that the additional \$25,000 appropriation asked for is necessary, as it will allow the completion and furnishing of the building and the addition of a wing, to be used as a kitchen, dining-room, etc. The directors have also expended \$7,000 additional in the building, aside from the State aid, this amount having about exhausted the Post Fund. The new hospital will accommodate about 200 patients, and as there is a yearly increase of about ten per cent in hospital patients, the capacity will be fully taxed. The present hospital building will be used as barracks.

On the 910 acres of land there are 55 buildings, lighted by electricity, and with steam heating, water, and sewerage systems complete in every particular, and everything requisite for the care, comfort, health and amusement of its inhabitants.

There are 861 members in the home, and the average sick list for the past year has been 145, while the death rate is about 60. There are three large storage reservoirs on the grounds, with a combined capacity of about 12,000,000 gallons. The recapitulation of the Secretary shows the following:

Cost of 910 acres land, comprising home grounds.....	\$17,750
" " 55 buildings, comprising home.....	180,225
" " permanent improvements	80,247
" " furniture and fittings of building.....	53,277
" " farming implements and livestock	9,650

Making total cost of real and personal property deeded to the State of California of.....	\$321,149
---	-----------

The home is compelled to hold in reserve numerous applications for admittance, on account of the lack of accommodations.

At present many of the members have their sleeping quarters in the second story of a building in which the engine-rooms are located underneath. The danger of fire is apparent, and doubly so for reason that the engine-room floors are of wood. It is proposed with the additional appropriation asked for to erect and construct a new power plant and fire-proof building and to demolish the old structure, which is in bad shape. The barracks will be removed to the present hospital quarters.

Although not strictly within the province of your committee, we visited and inquired into the various departments of the home, and found but little complaint as to management. One complaint, however, which should be attended to, to the satisfaction of the members, is that no milk or sugar is placed upon the tables. This is especially a hardship on evenings when only rice or mush, with bread, butter and tea, is served. Another complaint is that scarcely enough blankets are given for such cold weather as we have been having lately. The canteen, as now run, is better than at any time since its introduction, yet a somewhat stricter enforcement of its rules might be adopted. It is not at the canteen, however, that the troubles occur. In spite of the protest of those in charge of the home, the authorities of Napa County continue to license saloons at the very gates, over which the officers have no control. Many of the veterans while in the army contracted the drink habit to a greater or less extent, and while it is contended by the doctors at the home that a certain amount of stimulants is necessary, we think the canteen is amply sufficient to meet the case and we deprecate the action of the authorities in that respect.

BARNES, Chairman.

INTRODUCTION AND REFERENCE OF JOINT RESOLUTIONS.

By Mr. Prescott:

ASSEMBLY JOINT RESOLUTION No. 13.

Relative to admission of Chinese into the Philippines.

WHEREAS, The annual report of the Philippine Commission to the War Department recommends: That an amendment be made to the Chinese Exclusion Act, giving the power to the Government by law to admit a fixed and limited number of Chinamen into the Philippine Islands, who are certified to be skilled laborers, on the bond of the employer that for every Chinese skilled laborer employed he will employ a Filipino apprentice, and that he will return the Chinese skilled laborer thus introduced within five years after his admission to the country, and that he shall pay a head tax of not exceeding \$50 for each Chinaman so admitted to the Insular Government, to meet the expenses of the enforcement of these restrictions; and,

WHEREAS, The commission admits that unlimited admission of Chinese would be unwise; and

WHEREAS, The duty of the United States to the Philippines is to institute there the liberty, energy, enlightenment, and progress of American governmental methods and

American civilization and American mechanics, and not to increase Chinese methods, measures or mestizos; now, therefore, be it

Resolved by the Assembly and Senate of California, jointly, That we instruct our Senators to co-operate with our Representatives, who are earnestly requested to preserve the Chinese Exclusion Act in its entirety, and especially to make its provisions apply to the Philippine Archipelago; and be it

Resolved, That a copy of these resolutions be transmitted to each of our members in Congress, and to the Speaker of the House of Representatives and to the President of the Senate.

ASSEMBLY JOINT RESOLUTION No. 14.

Memorializing our Senators and Representatives in Congress to secure a reconsideration of the order of the Federal authorities transferring the Spanish archives from San Francisco to Washington, and to secure, if possible, the transfer of said archives to the State of California.

WHEREAS, The Secretary of the Interior, through the United States Land Commissioner at Washington, has directed the United States Surveyor-General at San Francisco to transfer the "Spanish archives" from San Francisco to Washington; and

WHEREAS, These archives embrace the records of the Spanish land-grants which form the basis of most of the California land titles, military reports, records of the early missions, proceedings of the alcalde courts, and a vast number of valuable manuscripts bearing upon the government and the people of early California under Spanish and Mexican rule, dating back to 1769, and are now, and have been long an element in important litigation in California; and

WHEREAS, Congress by the Act of May 18, 1858, recognized the local importance of the archives by placing the books and manuscripts in charge of the Federal Office for the District of California; and

WHEREAS, By reason of the importance of these books and documents in relation to the land titles of the State of California; by reason of the hardship that will result in many land matters in causing litigants and attorneys to go to Washington; and by reason of their peculiar historical and literary value it is inexpedient and unwise to have the same transferred as contemplated; be it

Resolved, That the Legislature of California request the authorities at Washington to reconsider their action in ordering the transfer of the Spanish archives from San Francisco to Washington, and further requests the Senators and Representatives in Congress from California to use their best endeavors to secure such reconsideration.

Resolved further, That we urge said Senators and Representatives to secure an actual transfer of said Spanish archives from the National Government to the State of California, to the end that the same may be deposited in either the State Library at Sacramento or in the Library of the University of California at Berkeley, and thus retain their proper relation to the State of California.

Referred to Committee on Federal Relations.

Section 1. The Civil Code of California is hereby amended by adding two new sections to title one, part one, chapter two, article three, to be numbered sections one hundred thirty-one and one hundred thirty-two, to read as follows:

131. In actions for divorce the court must file its decision and conclusions of law as in other cases, and if it determines that no divorce shall be granted, final judgment must thereupon be entered accordingly. If it determines that the divorce ought to be granted an interlocutory judgment must be entered, declaring that the party in whose favor the court decides is entitled to a divorce and from such interlocutory judgment an appeal may be taken within six months after its entry, in the same manner and with like effect as if the judgment were final.

132. ON STATE HOSPITALS AND ASYLUMS.

ASSEMBLY CHAMBER, SACRAMENTO, February 18, 1903.

MR. SPEAKER: Your Committee on State Hospitals and Asylums have visited the following State hospitals, to wit: The Veterans' Home at Yountville, the Napa State Hospital, the California Home for the Care and Training of Feeble-Minded Children, and the Mendocino State Hospital, and do report as follows:

We visited the Veterans' Home at Yountville, and found an institution which is the home of 861 former soldiers of the United States. It is a small-sized town, having 65 different buildings. It was organized and built up by a private organization, and then presented to the State. For support, the General Government pays \$100 per year for each soldier, which is supplemented by legislative appropriations.

Since acquiring the property, the State has given for permanent improvements \$25,000. This amount was appropriated two years ago, and with it a hospital has been built which is a credit to the State and to the financial ability of the management.

Your committee has not seen at any institution visited so good a showing as this for the money expended. It is still unfinished and unfurnished. The plans call for another wing, containing kitchen and dining-rooms, and should be built, as the building is several hundred feet from the kitchen of the home. The appropriation for furnishing should also be granted, as there are constantly in the hospital nearly 200 old soldiers, and the present hospital facilities are very inadequate. They are crowded into an old building, the second floor of which is used for barracks, which cannot be done and safely treat surgical cases. The home is lighted with electricity, and largely heated with steam; and the additional room makes it imperative that they have more power, which was inadequate before.

The home is most excellently managed, the discipline perfect, the soldiers well fed and clothed, and express themselves as contented. We bespeak for them generous treatment, for it will not be long that they will be with us, and while they are they should be carefully cared for.

At the California Home for the Care and Training of Feeble-Minded Children your committee found 561 inmates. We were told by the Medical Superintendent that there are now more than 300 waiting for admission, who can not at present be accommodated because of the crowded condition of the home. Here we devoted about three hours in the evening and until about half-past two o'clock P. M. of the following day in earnest effort to perform the duties imposed upon us.

On every hand it is apparent to the most casual observer that culpable neglect has attended the administration of the affairs of this institution.

From information obtained, we feel satisfied that, for some time past, the business methods of the administrative officers of this home have been lax in the extreme.

We are pleased to report that order is being restored in administrative methods, and that the future of the institution looks brighter.

The needs of the home, which are many and varied, are beyond the financial ability of the State at this time to satisfy in their entirety. The condition of the toilets and lavatories at this institution are such as we might expect to find in a Chinese colony, but hardly such as are to be looked for in an institution fostered by the State of California.

The floor of the laundry has been permitted to rot away, and pieces of tin, iron, and oilcloth are used to keep the laundry hands from standing in mud. These are but samples of conditions at the home.

At this institution we found the employes of the State uniformly courteous, the various departments as neat and the inmates as well cared for as the existing conditions of the institution will permit.

The committee had before them for consideration Assembly Bills Nos. 559, 560, 561, 562, 563, 564, and 697—carrying appropriations aggregating \$141,000 for this institution.

The action taken by your committee on these measures is shown in report heretofore submitted.

At the Mendocino State Hospital your committee found every portion of the building scrupulously neat, the patients well cared for, and all attendants faithful to their duties. The bright, sunny dormitories at this hospital are noticeable features. Here there are about 600 patients at the present time. The yard in which the patients exercise is large and so located as to get the full benefit of the morning sun.

The surroundings about this hospital are such that a few additions to the touch of nature by the hand of art will easily make the grounds about this institution the most beautiful of those of any public grounds in the State.

The action of your committee on the bills relative to this hospital is shown by report heretofore submitted.

At the Napa State Hospital are about 1,530 patients receiving care and treatment. Here your committee found attendants courteous and faithful. In the departments visited by your committee neatness marked everything. The patients are well taken care of. During the time your committee were at this hospital the rain fell so incessantly as to prevent our driving over the land, provision for the purchase of which is made by Assembly Bill No. 462.

The action taken by your committee on the bills relating to this hospital is shown by reports heretofore submitted.

CROMWELL, Chairman.

PETITIONS.

Mr. Greer presented the following petition from the Board of Supervisors of Sacramento County, which was ordered printed in the Journal:

SACRAMENTO, CAL., February 7, 1903.

HON. W. W. GREER:

DEAR SIR: WHEREAS, Owing to the passage of an Act at the session of the California Legislature of 1901, the revenues of the Sacramento County government were decimated to the extent of between \$30,000 and \$40,000 per year, owing to the curtailment of the powers

of the Boards of Supervisors in completely shutting off the collection of licenses from mercantile and other business establishments in the City of Sacramento;

WHEREAS, It is found necessary to provide for said deficiency by direct taxation, thereby greatly increasing the tax levy; and

WHEREAS, There has been introduced in the Assembly by Assemblymen Johnson of Sacramento County and Lewis of Riverside, bills repealing said law and restoring to the Board of Supervisors their former powers; therefore, be it

Resolved, That this Board of Supervisors indorse said bills, and urge on our representatives in the Legislature to use all honorable means to further the passage of said bills.

Respectfully,

MORRIS BROOKE.

L. B. KELLER, Clerk of the Board.

Mr. Johnson presented the following petition from merchants and business men of Sacramento, which was ordered printed in the Journal:

SACRAMENTO, CAL., February 13, 1903.

HON. GROVE L. JOHNSON, *Assembly Chamber, Sacramento, California.*

DEAR SIR: It has come to the knowledge of the undersigned merchants and business men of Sacramento City that an effort is being made to repeal Section 3366 of the Political Code of this State, relative to license taxes, and we understand that you are the author of Assembly Bill No 97, having that object in view; but we are led to believe that you have introduced this measure by request of some person not a resident of this city and interested only in matters outside of the City of Sacramento.

If you will investigate the matter you will find that when Section 3366 of the Political Code was enacted, whereby Boards of Supervisors were deprived of the power to fix and cause the collection of license taxes in cities, the Board of Trustees of this city promptly took up the matter of increasing the licenses in the city, even to an amount in excess of that which had previously been collected by both the county and city combined, the result being that the legitimate business enterprises of this city have been compelled to pay excessive taxation upon their business. Should the section of the Political Code referred to be repealed, the result would be that the county would at once impose again the former license tax on the merchants of the city, while the city would continue the present rate, thus making the burden of license taxes absolutely unbearable in the City of Sacramento. We therefore feel that the law, as it now stands, should be left undisturbed.

It is generally supposed that the regulation referred to is intended for the purpose of reaching the retail liquor traffic, but in its effect this would not be the case, for, although it is true that they would be paying a portion of the additional licenses imposed, such portion would be small compared to that which would be paid by the business houses of the city who make this a commercial center. Furthermore, this increased license taxation on the business interests of the city would be largely for the benefit of property outside of the city, much of which is owned by people abundantly able to pay their just proportion of taxes. We, therefore, respectfully request you to carefully consider this matter, and, if at all consistent with your duty as an Assemblyman, to abandon Assembly Bill No 97, and allow the Political Code provision to stand as it now is.

In the hope that you can and will accomplish this, we remain,

Respectfully,

SENATE COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL No 33.

An Act to amend the Civil Code by adding two new sections thereto, to be numbered one hundred thirty-one and one hundred and thirty-two, to title one, of part one, chapter two, article three, relating to actions for divorce

The people of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. The Civil Code of California is hereby amended by adding two new sections to title one, part one, chapter two, article three, to be numbered sections one hundred thirty-one and one hundred thirty-two, to read as follows:

131. In actions for divorce the court must file its decision and conclusions of law as in other cases, and if it determines that no divorce shall be granted, final judgment must thereupon be entered accordingly. If it determines that the divorce ought to be granted an interlocutory judgment must be entered, declaring that the party in whose favor the court decides is entitled to a divorce, and from such interlocutory judgment an appeal may be taken within six months after its entry, in the same manner and with like effect as if the judgment were final.

132. When one year has expired after the entry of such interlocutory judgment, the court on motion of either party, or upon its own motion, may enter the final judgment granting the divorce, and such final judgment shall restore them to the status of single persons, and permit either to marry after the entry thereof; and such other and further relief as may be necessary to complete disposition of the action, but if any appeal is taken from the interlocutory judgment, or motion for a new trial made, final judgment shall not be entered until such motion or appeal has been finally disposed of, nor then, if the motion has been granted or judgment reversed. The death of either party after the entry of the interlocutory judgment does not impair the power of the court to enter final judgment as hereinbefore provided; but such entry shall not validate any marriage contracted by either party before the entry of such final judgment, nor constitute any defense of any criminal prosecution made against either.

SEC 2 All Acts or parts of Acts in conflict with the provisions of this Act are hereby repealed.

1. Whenever it is satisfactorily made to appear by the oral statements, under oath, of not less than two credible witnesses, conversant with the facts so stated, to the satisfaction of the judge or justice of any superior court or justice court of this state, before whom any action or special proceeding is pending, that any party thereto is unable to pay the, or any of the said fees, costs, charges, or expenses incident thereto, and fixed by any law of this state or rule of court to be paid or advanced by such party, it shall be the duty of such judge or justice:

(a) To forthwith cause the statement of each such witness to be reduced to writing, read over to said witness, and by him corrected and subscribed and sworn to before such judge or justice.

(b) To cause said statement to be filed among the papers in said action or proceeding, and thereupon to make an order of the court and enter the same in the minutes thereof and of said action or special proceeding, determining how much, if anything, the said party is able to pay, or advance, towards said fees, costs, charges, or expenses or either; directing said party to pay said sum into court, to be disbursed thereafter, on account of such fees, costs, charges, or expenses, as the same are incurred, or to be returned to said party, as the court may order from time to time; relieving said party from the necessity of paying or advancing any other or further sums on account of said fees, costs, charges or expenses in said action or proceeding, and directing the, and each of the officers of said court, and all other persons subject to its orders in the premises, to do and perform all acts and things for which a fee, charge or expense would otherwise be so demandable from said party, without demanding payment thereof from him; *provided, however*, that said party shall be entitled to demand, have transcribed, and receive from the phonographic reporter, if any, only such transcripts, testimony and proceedings as the court may reasonably determine and order from time to time.

3. Every officer and person performing any service or act for, or conferring any benefit upon any such party pursuant to any such showing or order, or incurring any necessary expense in so doing, otherwise entitled to receive or recover any such fee, charge, cost, or expense, for his own use or benefit, or for that of any of his deputies or appointees shall have a claim therefor against the county or city and county in which said action or proceeding is brought or pending, as the case may be, for the amount thereof; and said claim shall be payable out of the general fund of said county or city and county, and shall be presented, examined, allowed, audited and collected in the same manner as other claims against said county, or city and county.

4. The county or city and county shall have a claim against said party for the aggregate amount of all such fees, costs, charges and expenses not paid by him, and a preferred lien upon any judgment or property, or both, recovered or received by him in said action or proceeding; and costs may be taxed in said action as though the same had been paid originally by said party.

RESOLUTION—(OUT OF ORDER).

By Mr. Brown:

A PROTEST AGAINST THE PASSAGE OF SENATE BILL NO. 354.

MILLS BUILDING, SAN FRANCISCO, February 9, 1903.

To the Honorable Senate and Assembly of the State of California.

GENTLEMEN: We respectfully represent to your honorable bodies that the effect of the enactment into law of the provisions of Senate Bill No. 354, now pending before you, or similar provisions in any other bill, would be to paralyze the manufacturing industries of California and many of the producing industries depending upon them, for the reasons below stated.

The effect of this bill, if passed, will be to require that every article manufactured in this State shall be conspicuously labeled and stamped with the name and address of the manufacturer, and in towns and cities with his street and number, and to prohibit all dealers and other persons from selling or exposing for sale any articles made in this State unless so labeled, etc., under penalty, both in the case of the manufacturer and of the dealer, of conviction and punishment for misdemeanor.

Under the proposed Act, every one of the millions of cans, bottles, and other containers of fruits and other products made in this State would have to be stamped as specified. Likewise, the ordinary labels covering these containers as well as the boxes in which they are packed. Many parts of a battleship, of machinery, wagons, and other articles made here in part would have to carry the prescribed name and address. The requirement would apply to every brick made in the State and to other articles of clay, and even to a spool of thread, selling for one cent. The cost of compliance would in many cases be prohibitive of manufacture, and in other cases burdensome and oppressive, and the value of many thousands of dollars' worth of labels, already prepared for use in the ordinary course of business and now on hand with our manufacturers, would be destroyed upon the passage of the bill.

The cause of this protest is that the provisions of this measure are utterly impracticable in character, opposed to fixed conditions of trade, and that they grossly discriminate against the manufactures of this State and in favor of articles made elsewhere and brought into this State, because the requirements of the bill do not and can not apply to articles made outside of this State. Should this bill specifically recite that no article made elsewhere and brought into this State shall be required to be so labeled, etc., and that no person selling it shall be punished, but that all articles made in our own State shall be so labeled, and that any person making or selling anything made in this State not so labeled shall be fined and imprisoned, it would more clearly define the practical working of this measure, which seeks to brand the manufacturers of our State as criminals for doing what every manufacturer outside of the State is permitted to do and can not be prevented from doing.

The established conditions of trade imperatively require the manufacturer here and elsewhere to put up goods in many instances under the brand and label of the jobber and merchant. Refusal on the part of manufacturers of this State to comply with this demand of the jobber would inevitably send him to the manufacturers of States whose laws seek to build up their industries instead of to destroy them. One third of the market of many of our manufacturers would be lost in this manner alone through this measure, and the producers of fruits, vegetables, and other products, as well as the manufacturer, would be irreparably injured.

We further respectfully represent to your honorable bodies that no part of this opposition to said bill relates to the purpose of the measure to distinguish between the products of white and of Chinese labor, and that, while it is possible that the originators of this measure conceived that they were working to a laudable end, no more sweeping blow, disastrous in its effects, could be struck at our industries than this proposed law.

We therefore most emphatically protest against the passage of Senate Bill No. 354, and of any other bill containing similar provisions.

Respectfully,

MANUFACTURERS AND PRODUCERS' ASSOCIATION OF CALIFORNIA.

(Signed:) A. SEABORO, President.

CHARLES E. BANCROFT, Secretary.

[SEAL]

The Manufacturers and Producers' Association of California was organized in March, 1895. It is composed of producers and manufacturers throughout the State, and its leading purpose is to encourage the manufacture and production, distribution and consumption of California products of all kinds.

WHEREAS, These valuable old archives, comprising three hundred and two bound volumes, embrace the records of the Spanish land grants, military reports, old mission records, and other valuable documents bearing upon the early history of this State; therefore, be it

Resolved, That the people of the State of California, represented in Senate and Assembly, protest against this proposed transfer; and be it further

So ordered.

ASSEMBLY JOINT RESOLUTION No. 14.

Memorializing our Senators and Representatives in Congress to secure a reconsideration of the order of the Federal authorities transferring the Spanish archives from San Francisco to Washington, and to secure if possible the transfer of said archives to the State of California.

WHEREAS, The Secretary of the Interior, through the U. S. Land Commission at Washington, has directed the U. S. Surveyor-General at San Francisco to transfer the Spanish archives from San Francisco to Washington; and

WHEREAS, These archives embrace the records of the Spanish land-grants which form the basis of most of the California land titles, military reports, records of the early missions, proceedings of the alcalde courts, and a vast number of valuable manuscripts bearing upon the government and the people of early California under Spanish and Mexican rule, dating back to 1769, and are now, and have been long an element in important litigation in California; and

WHEREAS, Congress by the Act of May 18, 1858, recognized the local importance of the archives by placing the books and manuscripts in charge of the Federal office for the District of California; and

WHEREAS, By reason of the importance of these books and documents in relation to the land titles of the State of California; by reason of the hardship that will result in many land matters in causing litigants and attorneys to go to Washington; and by reason of their peculiar historical and literary value, it is inexpedient and unwise to have the same transferred as contemplated; be it

Resolved, That the Legislature of California request the authorities at Washington to reconsider their action in ordering the transfer of the Spanish archives from San Francisco to Washington, and further requests the Senators and Representatives in Congress from California to use their best endeavors to secure such reconsideration.

Resolved further, That we urge said Senators and Representatives to secure an actual transfer of said Spanish archives from the National Government to the State of California, to the end that the same may be deposited in either the State Library at Sacramento or in the library of the University of California at Berkeley, and thus retain their proper relation to the State of California.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, February 23, 1903.

To the Assembly of the State of California.

I have the honor herewith to transmit for your information a copy of a dispatch which has been received from Surgeon-General Wyman of the Public Health and Marine Hospital Service of the United States Government.

As you will observe, this dispatch shows that the United States authorities believe the health conditions in San Francisco are now satisfactory, and they have proceeded to communicate a knowledge of the actual situation to the governments of countries which, under a misapprehension, had established quarantines against ships sailing from that port.

The showing thus made is one which the people of California can regard with considerable satisfaction, and I believe that the policy of cooperation between the Federal, State, and Municipal governments is being justified by results.

GEO. C. PARDEE,
Governor of California.

COPY OF DISPATCH FROM SURGEON-GENERAL.

WASHINGTON, D. C., February 22, 1903.

GOVERNOR PARDEE, *Sacramento, Cal.*

Replying to inquiry I have to say that no case of plague has been discovered in San Francisco since December 11th, nearly two months and a half ago, and then only one case. Official reports show that the National, State, and City authorities are now working in thorough harmony under the leadership of the Federal officers; that searching inspections are being made daily in Chinatown, and proper sanitary measures are being rigidly enforced, including radical measures for the destruction of rats. Bacteriological examinations of captured rats are being made daily, and the last infected rat was found on December 8th, since which time bacteriological examinations have been made of three hundred and twenty-four dead rats and none found infected.

The State Department was requested last week to notify the Governments of Mexico and Ecuador of the satisfactory conditions now prevailing, and which have prevailed for some time at San Francisco, and doubtless this has been done, and the above facts have been moreover communicated to the International Union of American Republics.

WALTER WYMAN,
Surgeon-General U. S. Public Health and Marine Hospital Service.

RECESS.

At twelve o'clock M., the Assembly took a recess until two o'clock P. M.

Oh! say can you see by the dawn's early light,

What so proudly we hailed at the twilight's last gleaming;
Whose broad stripes and bright stars through the perilous night,
O'er the ramparts we watched, were so gallantly streaming?

O'er the ramparts we watched, were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there;

Oh, say, does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

On the shore, dimly seen through the mists of the deep,
Where the foe's haughty host in dead silence reposes

Where the ocean's haughty host in dead silence repose.
What is that which the breeze o'er the towering steep
As it fitfully blows, half conceals, half discloses?

Now it catches the gleam of the morning's first beam ;
Its full glory reflected now shines on the stream :

'Tis the star-spangled banner! Oh! long may it wave
O'er the land of the free and the home of the brave.

PROTEST AGAINST PASSAGE OF BILL.

Mr. Barber presented the following protest from the Merchants' Association of San Francisco:

SAN FRANCISCO, CAL., February 16, 1903.

To the Honorable Senate and Assembly of the State of California.

GENTLEMEN: On behalf of the many manufacturers who are members of this Association, we strongly protest against the passage of Senate Bill No. 354, requiring every article made or manufactured in this State to be stamped with the name and address of the manufacturer.

We feel that, upon consideration, you will recognize that to require every article made in the State to be so stamped, while goods made outside of the State can be sold here without being so stamped, is a direct discrimination against home manufacturers, while it should be the duty of every one to encourage manufacturing here and the consumption of home products in preference to those made abroad. To require every article made in the State to be stamped entails a heavy additional expense on the California manufacturer, which the manufacturer in other States is not obliged to assume. It follows, therefore, that California goods can not compete on equal terms with goods from other States and that the enactment of any law resulting in this will be detrimental to the interests of the State.

We therefore urge that Senate Bill No. 354 be not passed.

Respectfully,

THE MERCHANTS' ASSOCIATION OF SAN FRANCISCO.

FRANK J. SYMMES, President.
L. M. KING, Secretary.

Protest read, and ordered printed in the Journal.

Section eight of article eleven of the Constitution is hereby amended so as to read as follows:

Whenever fifteen per cent of the qualified voters of the city shall petition the legislative authority thereof to submit any proposed amendment or amendments to said charter to the qualified voters thereof for approval, the legislative authority thereof must submit the same. To propose to the people of the State of California an amendment to the Constitution of the State amending Article XI, by adding thereto a new section to be numbered Section 20, providing a system of direct legislation by means of the initiative and referendum in counties, cities and counties, and cities.

The Legislature of the State of California at its regular session, commencing on the fifth day of January, 1903, two thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes that Article XI of the Constitution of the State of California be amended by adding thereto a section to be numbered Section 20, to read as follows:

Section 20. Any measure that the legislative body, or the electorate thereof, of any county, city and county, or city has authority to adopt, said legislative body may submit to a vote of its constituent electors at a general or special election.

Upon presentation to (first) the legislative body of any county, or city and county, or (second) to the legislative body of any city of a petition or petitions signed by qualified electors in number equal to 10 (ten) per cent of the total number of votes last cast for all persons voted for for county clerk in the first instance, or city clerk in the second instance, asking for submission to the electors of a measure fully set forth in said petition or petitions, being a measure that said body might itself adopt, it must either adopt such measure without alteration or submit the same to its electorate at the next succeeding general election occurring subsequent to 60 days after the filing of said petition or petitions. But if such petition or petitions are signed by qualified electors in number equal to 15 per cent of the total number of votes last cast for all persons voted for for county clerk or city clerk as the case may be, then such measure if not so adopted by such legislative body must be submitted to such electorate at a special election to be called within 60 days from the filing of such petition or petitions.

If such proposed measure is a measure that said legislative body might adopt except for the fact that it involves the repeal or amendment of a measure adopted by the electorate, as herein provided, and if in such case said petition or petitions are signed by qualified electors in number equal to 15 per cent of the total vote last cast for all persons voted for for county clerk or city clerk as the case may be, then such proposed measure must be submitted to the electors of the county, city and county, or city as the case may be, at the next succeeding general election occurring subsequent to 60 days after the filing of said petition or petitions.

Except as herein provided no penal ordinance or measure, no ordinance or measure granting any franchise or privilege, and no ordinance making or authorizing any contract (except contracts where the subject-matter involved is of less value than \$5,000, and except contracts for improvements the expenses whereof are defrayed by special local assessment) passed by the legislative body of any county, city and county, or city, shall go into effect in less than 40 days after its final passage. But ordinances and contracts necessary for the immediate preservation of the public peace, health, or safety passed by a three-fourths vote of the legislative body, and not obligating the county, city and county, or city, as the case may be, for a longer period of time than six months, may go into effect at the will of the legislative body adopting the same.

If a petition or petitions signed by qualified electors of the county, city and county, or city in number equal to ten per cent of the total number of votes last cast for all persons voted for for county clerk or city clerk as the case may be is filed with the county clerk or city clerk as the case may be, asking that any ordinance or measure (except ordinances or resolutions relating to improvements the expenses whereof are defrayed by special local assessments and except ordinances or resolutions preliminary to bond issues, where the issuance of the bonds is submitted to popular vote) adopted by its legislative body be submitted to such electorate (said petition or petitions being filed within forty days after the final passage of said ordinance or measure) then such ordinance or measure must be either repealed or submitted to the electors for approval or rejection at the next succeeding general election occurring subsequent to 60 days after the filing of said petition or petitions or at a special election called prior to such general election; and if such ordinance or measure has not gone into effect before the

filing of such petition or petitions, it shall not go into effect until and unless adopted at such election, and no ordinance or measure once so submitted shall be again so submitted except by a vote of the legislative body or on a petition signed by 15 per cent of the electorate.

If a majority of the votes cast on any ordinance or measure referred, as herein provided, to the electors of any county, city and county, or city shall be in favor thereof it shall, if not already in effect, go into effect 15 days after such election or as soon thereafter as the official count shall be determined, otherwise such ordinance or measure shall be repealed or rejected. Such repeal shall take effect 15 days after such election, or as soon thereafter as the official count shall be determined. Such repeal of a measure repealing a former measure shall revive such former measure. No ordinance or measure approved by an electorate under the provisions of this section shall be subject to veto or be amended or repealed except by vote of the same electorate or by legislative authority superior to that of the legislative body of such electorate.

If the provisions of two or more measures approved or adopted at the same election conflict, then the measure receiving the highest affirmative vote shall control. In any city or city and county that has or may hereafter have a charter providing a system of direct legislation the provisions of this section shall not be operative except as to matters not provided for by such charter

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, February 26, 1903. }

To the Assembly of the State of California:

I have the honor to respectfully return to your honorable body, without my approval, Assembly Bill No. 99, with my objections thereto, as follows:

The bill provides for an increase in the number of agricultural districts in this State. Instead of an increase, there should, if anything, be a decrease. When these districts were first organized, they were all conducted as it was intended they should be, viz., as an aid to the agricultural interests of the State; their number was small, and the cost to the State was not great. But, as time has passed, their number has steadily increased, until there are now nearly as many districts as there are counties.

Under one of the provisions of the bill, it is proposed to make, on assembly lines, two districts in one county, and this, I think, is a very bad precedent to establish.

The appropriation of State money for the support of these agricultural districts has increased steadily, until to-day it is a severe drain upon the treasury of the State. If, however, which is not the case, the exhibitions held in the agricultural districts had all been conducted as aids to the agricultural interests of the State, and for no other purpose, there might not be so much objection to their increase in number. Such, however, has unfortunately not been the case. And, therefore, especially as the finances of the State will not, in my judgment, permit of any but absolutely necessary increase in appropriations, I feel called upon to, and do, disapprove the bill.

GEO. C. PARDEE,
Governor of California.

REPORT OF COMMITTEE ON INVESTIGATION OF JESSUP FUND.

ASSEMBLY CHAMBER, SACRAMENTO, February 27, 1903.

To the Assembly of the State of California:

We, your committee appointed to investigate the alleged misappropriation of the Jessup Fund, and any other matters in connection with the State Home for the Care and Training of Feeble-Minded Children at Eldridge, California, pursuant to the resolution adopted by this Assembly February 6, 1903, page 17 of Journal, would report as follows:

We have held five meetings, examined nine witnesses, and taken six hundred and fifty folios of testimony; and, from the evidence adduced, both oral and documentary, we find as follows:

First—That Lewis B. Jessup, a person of feeble mind, is, and for many years last past has been, an inmate of said State Home for the Care and Training of Feeble-Minded Children.

That on or about the year 1892 a bequest amounting to \$3,000 came into the hands of the trustees of said home from the estate of Hannah Jessup, mother of said Lewis B. Jessup.

Under the provisions of the will making the bequest, the principal sum of \$3,000 was directed to be placed at interest, and the income thereof be used for the support and maintenance of the said Lewis B. Jessup, and, at his death, the said principal sum to revert to said home.

That on or about the 24th day of March, 1902, the said fund had increased, by reason of the accumulation of interest, until it amounted to \$3,676.80, and the same was on deposit with the Savings Bank of Santa Rosa, and was evidenced by a certificate of deposit, which was and is in the words and figures as follows, to wit:

No. 13,296.

\$3,676.80.

SAVINGS BANK OF SANTA ROSA,
SANTA ROSA, CAL., March 26, 1902. }

Trustees, Home Feeble-Minded Children, have deposited in this bank thirty-six hundred and seventy-six and eighty one-hundredths dollars, payable to president and secretary, or order, one year after January 1, 1902, with interest until due at the rate of 3 per cent. per annum on the return of this certificate properly indorsed.

No interest allowed after maturity.
Jessup Fund.

J. P. OVERTON, President-Cashier.

(Indorsed.) Trustees Home Feeble-Minded Children.

HERBERT F. DUGAN, President.

WM. M. LAWLOR, Secretary.

Certificate of deposit, Savings Bank of Santa Rosa.

That said certificate of deposit was in the possession of John P. Overton, treasurer of the Board of Trustees of said State Home for the Care and Training of Feeble-Minded Children.

That on or about the — day of September, 1902, Herbert F. Dugan, C. W. Gould, and H. E. Leland, unlawfully and without authority, obtained and took the said certificate from the said treasurer of the Board of Trustees of said State Home for the Care and Training of Feeble-Minded Children, and drew the money from the said Savings Bank of Santa Rosa, to wit, the sum of \$3,676.80, so held in trust by the said trustees; and the said Herbert F. Dugan, C. W. Gould, and H. E. Leland, unlawfully and without authority misappropriated and misapplied the said sum.

Second—That on or about the first day of September, 1901, Dr. William M. Lawlor was elected and became the superintendent of said home, and continued as such superintendent from the foregoing date until on or about the 14th day of October, 1902.

That at the time the said Dr. Lawlor assumed the management of the said Home, and during his administration, the State of California was contributing for the support and maintenance of said Home the following sums of money monthly, to wit:

For salary fund	\$3,250 00
For maintenance fund	4,250 00
Total	\$7,500 00

That there was on the said first day of September, 1901, on deposit with the State Treasurer for the benefit of the Home and as a contingent fund for said institution the sum of \$19,000.

That during the incumbency of the said Dr. Lawlor there was received by him as superintendent and for the benefit of said Home and for the contingent fund thereof the sum of \$6,580—making a total of \$25,580.

That during the incumbency of the said Dr. Lawlor there was drawn from the contingent fund the sum of \$25,134.03.

That a certain portion of the said sum of \$25,134.03 drawn from the contingent fund was illegally expended, but the exact amount thereof your committee has been unable to determine.

That a portion of the said sum of \$25,134.03 was expended for repairs and permanent improvements, but your committee has been unable to ascertain the amount so expended or to segregate or separate the same from the amounts expended from said contingent fund for the maintenance of said Home.

That the following table shows the number of inmates, the amounts received, and the amounts due from the State for maintenance under the provisions of Section 2 of the Act of 1897, during the incumbency of the said Dr. Lawlor as superintendent:

Month.	No. of Patients.	Appropriation for Support.	Contingent Fund	Total.
September.....	460	\$4,249 80	\$1,611 00	\$5,860 20
October.....	467	4,250 49	46 56	4,297 00
November.....	469	4,166 61	124 00	4,290 61
December.....	473	4,249 14	454 86	4,704 00
January, 1902.....	469	4,249 04	553 62	4,802 66
February.....	481	4,332 84	686 75	5,019 59
March.....	489	4,226 73	1,444 30	5,671 03
April.....	489	4,250 79	1,585 06	5,835 85
May.....	492	4,249 34	2,403 22	6,652 56
June.....	480	4,241 82	3,013 46	7,255 28
July.....	477	4,236 71	4,236 71
August.....	470	4,248 71	1,065 00	5,313 71
September.....	478	4,209 03	4,209 03
October.....	483	4,247 83	11,367 66	15,615 49

Third—That at present the monthly expense account exceeds the allowance to said Home and bills are incurred and carried over from month to month, redated and drawn from the funds of the following month or months, thereby materially hindering and injuring the business management of the said Home.

Fourth—That the condition of the Home shows it to have been grossly mismanaged in the past. Some of the buildings are in advanced stages of decay and ruin. The toilets and lavatories are crude and inadequate, and difficult to cleanse; they are a menace to health, notwithstanding the efforts of the management to keep them clean. The plumbing is leaky and otherwise defective, and pails are suspended to catch the

dripping water. The floors are worn and splintered, and, in the laundry, oilcloth and tin are used to cover the holes where the boards have rotted away. The machines in the laundry are falling to pieces.

The heating system is very unsatisfactory; where the steam is used the building is comfortably heated, but the hot water system is inefficient, and stoves are used to supplement it.

The fire protection is inadequate; there are virtually no fire-escapes. It would be almost impossible to save the inmates of the upper wards in case of fire.

There are no elevators in the building, and the food must be conveyed in buckets from the kitchen to the upper wards, a distance of several hundred feet, and up three flights of stairs.

The drains from the premises are not in good condition, and during storms the basement is flooded.

These few examples of neglect and decay indicate the generally dilapidated condition of the institution.

There is a very small showing here for the \$29,000 used from the contingent fund and trust funds from 1901 to 1902.

In marked contrast is the Manor House. It seems to be the home for the trustees during their visits to the institution, and the air of comfort and plenty suggests that too much money has been expended here.

Fifth—That there are now outstanding bills or claims against said Home alleged to have been incurred by the said superintendent, Dr. Lawlor, during his incumbency as such, amounting to \$2,418.48; but what amount of these claims or bills are just and legal claims against the institution your committee has been unable to determine.

Sixth—That C. W. Gould, the present chairman of the Board of Trustees of said Home, has taken from said Home and now detains illegally and without authority two inmates, namely, Rose King and Maggie Stillman.

That Rose King is now residing in the Home, with the family, and under the management and direct control of the said C. W. Gould in San Francisco, California.

That said Maggie Stillman is residing with a family by the name of Carson, on Van Ness avenue, San Francisco, California.

Seventh—That the business management of said Home during the administration of Herbert F. Dugan, C. W. Gould, H. E. Leland, J. T. Harrington, and Thomas H. Rooney, as a board of trustees, with Dr. Lawlor as superintendent, was careless, lax, and unbusiness-like.

Eighth—That at present there is insubordination among the employes, and the amount paid for salaries is in excess of the amount allowed by law.

Wherefore, your committee, in view of the foregoing findings, recommends:

1. That the Attorney-General proceed forthwith to institute and prosecute to final judgment any and all suits necessary for the recovery of the said sum of \$3,676.80 found to have been misappropriated by the said Herbert F. Dugan, C. W. Gould, and H. E. Leland.

2. That Rose King and Maggie Stillman, inmates of said State Home for the Care and Training of Feeble-Minded Children, be returned forthwith thereto.

3. That all unnecessary and all insubordinate employes be dismissed from said Home forthwith.

Your committee would further suggest that the Governor of the State of California, through the State Board of Examiners, proceed at his earliest convenience to ascertain by investigation, what amount, if any, of the contingent fund used by said Board of Trustees was illegally expended.

That the Attorney-General proceed to institute and to prosecute to final judgment a suit for the recovery of any and all sums illegally expended out of the contingent fund during the administration of Herbert F. Dugan, C. W. Gould, H. E. Leland, J. T. Harrington, and J. F. Rooney, as trustees.

We further recommend that the said institution be placed under the control and management of the State Lunacy Commission.

Respectfully submitted.

A. M. DREW, Chairman,
N. K. FOSTER,
FRANK D. LEWIS,
Committee.

We sign the above report excepting the fourth finding.

AUBREY M. LUNLEY.
WM. H. GLEESON.
